

Fermilab's Environmental Management System (EMS)

Policy Highlights

We integrate environmental consideration into everything we do.

We employ sound pollution prevention and waste reduction practices.

We employ products that contain recycled materials, prevent pollution, are safe, energy-efficient, and protective of the environment, and can be reused, recycled, or disposed of safely.

We avoid harming cultural resources, protected species, natural habitats and ecologically sensitive areas.

We minimize our emissions and effluents.

We continually improve our programs for protecting our environment.

We demonstrate to the public the means to minimize or avoid environmental impacts.

And

We educate experimenters and employees at all levels to appreciate and protect our environmental resources.
